FINE ARTS

You might be a recent school leaver. Or looking to reskill. Or perhaps you are trying to find your direction in education - unsure of exactly what you want to do.

You start here. In a place where you can **explore, experiment**, and grow as an artist. You start here with the fundamentals of **painting, drawing**, and **multimedia**, working alongside peers and guided by practicing artists in a **communal studio**.

You start here, where your art becomes about more than refining or discovering technique; it evolves through asking questions, taking risks, and finding your unique voice. Through **projects** and **lectures** and **workshops**. In a place where you'll receive honest feedback, where you have the freedom to try new things, and the time and space you need to develop.

You build your **portfolio** - editing, selecting, and refining your work - and you create something **bold, evolving**, and unmistakably - **yours**.

You start here, and have the skills, knowledge and qualifications to study further or explore other certificates in fashion or design or IT.

So pick up a prospectus, **give us a call** or come in for a tour and a chat.

Or even just visit our website and find out more.
